International Journal of Coal Geology 25 (1994) 313–314

International Journal of coal geology

# Contents Volume 25, 1994

*Research Papers*

Anatomy of recent and peatified *Calluna vulgaris* stems: implications for coal maceral formation
E.v.d. Heijden, F. Bouman and J.J. Boon ..... 1

Maceral distribution in Garumnian coals and palaeoenvironmental implications in the central Pyrenees, Spain
M. Garcia-Vallès, J. Prado and M. Vendrell-Saz ..... 27

Influence of rock particle size on the artificial thermal evolution of kerogen. A petrographic and geochemical study
I. Suárez-Ruiz, L. Martínez, Ph. Bertrand, J.G. Prado and J.-R. Disnar ..... 47

Petrographic and geochemical characterization of pale and dark brown coal from Yunnan Province, China
Q. Ming, R. Xilin, T. Dazhong, X. Jian and M. Wolf ..... 65

Geochemistry of boron in Bulgarian coals
G. Eskenazy, D. Delibaltova and E. Mincheva ..... 93

*Book Review* ..... 111

*Research Papers*

A study of coal facies in the Korba sub-basin, Mahanadi Valley, India
R.M. Singh and C.S. Dwivedi ..... 113

Undiscovered unit regional resources of Gondwana coals in India
M.V.B. Raju and G.B. Misra ..... 133

Chronostratigraphic correlation through reflectance data in the Broach Depression, Cambay Basin, India
S.K. Bhattacharya, R.K. Kumar and K.L.N. Rao ..... 145

Coal petrography: a pattern recognition approach
D.P. Mukherjee, D.K. Banerjee, B. Uma Shankar and D. Dutta Majumder ..... 155

Petrology and palynology of the No. 5 Block coal bed, northeastern Kentucky
J.C. Hower, C.F. Eble and R.F. Rathbone ..... 171

Modelling of gas generation in coals of the Zonguldak basin (northwestern Turkey)
M.N. Yalçın, H.J. Schenk and R.G. Schaefer ..... 195

*Guide for Authors*

*Notes for Electronic Text Preparation*

*Research Papers*

A debris flow deposit in alluvial, coal-bearing facies, Bighorn Basin, Wyoming, USA: Evidence for catastrophic termination of a mire
S.B. Roberts, R.W. Stanton and R.M. Flores ..... 213

Characteristics of zircons from volcanic ash-derived tonsteins in Late Permian coal fields of eastern Yunnan, China
Y. Zhou, Y. Ren, D. Tang and B. Bohor ..... 243

Susceptibility to spontaneous combustion of Indian coals and lignites: an organic petrographic autopsy
B.K. Misra and B.D. Singh ..... 265

Clays and other minerals in coal seams of the Moura–Baralaba area, Bowen Basin, Australia
C.R. Ward and P.J. Christie ..... 287

*Book Review*

*New Perspectives on Central Appalachian Low-Sulfur Coal Supplies,* M. Miller, J. Platt, J. Price, R. Schadelbaur and S. Suboleski (Eds.) — J.C. Ferm ..... 311
